

Intger Vector insertion with push_back

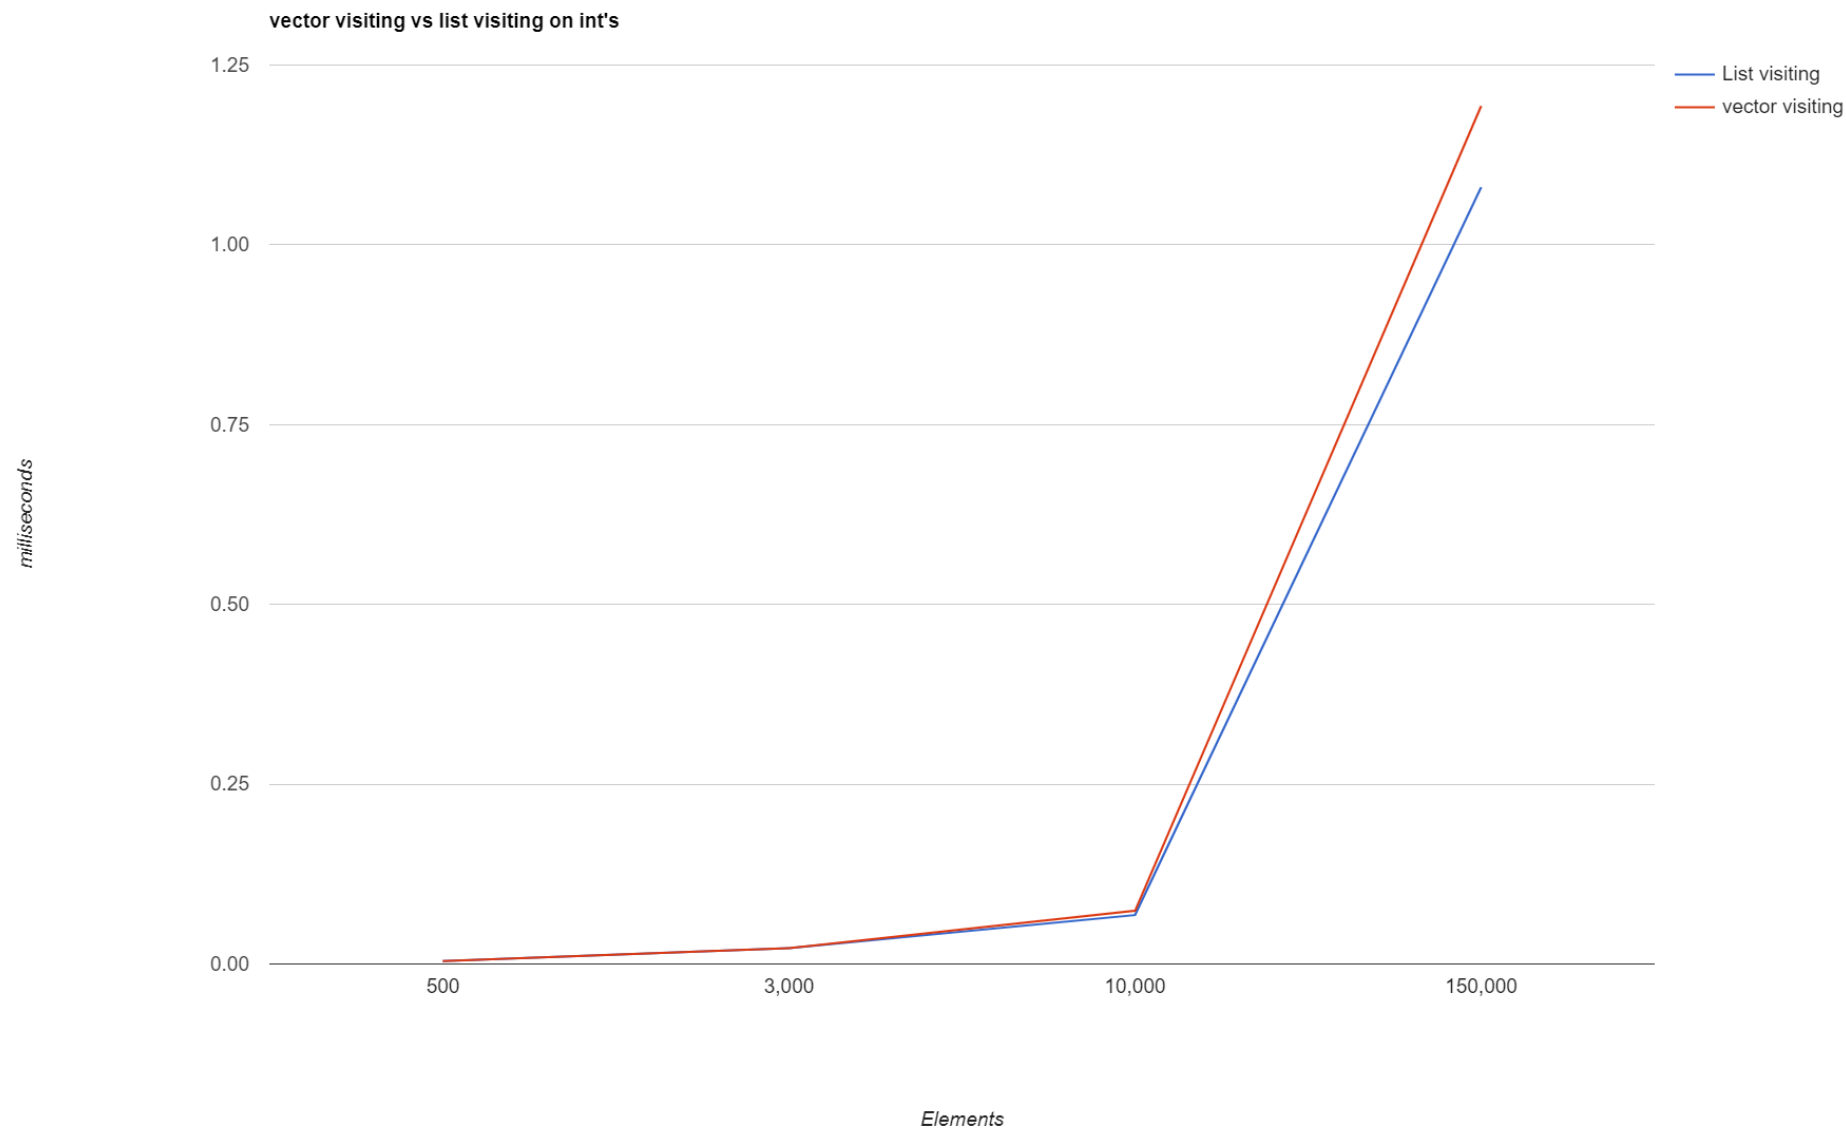

List insertion vs vector insertion on int's

Report write-up

Graph # 1 Push-back

- Shows regular vector insertion performance with `push_back()`

Graph # 2

- Shows vector insertion performance with `push-front` (Much worse)

Graph # 3

contrasts graph 1 and 2

Graph 4

Vector insertion vs list insertion (typically 3x faster to use vector insertion)

Graph 5

Vector visiting vs list visiting
Very similar.
